

Super Strength Fat-Less Slim Tea

For Weight Loss &
Cholesterol Control

Extreme diets, diarrhoea and intense periods of exercise over short periods of time may help individuals lose weight quickly. During this time a very large amount of adequate nutrition and fluid is also lost. We more often than not find that once the diet and exercise stops the weight is quickly regained.

Fat-Less Slim Tea Super Strength helps weight loss and cholesterol control by five ways:

1. May aid weight loss by helping to normalise metabolic function;
2. May help maintain normal healthy cholesterol levels – LDC, HDL, lipoproteins and triglycerides;
3. Minimises unwanted fat again.
4. Helps reduce fat absorption.
5. Helps utilise fat intake within the body.

After considerable research, it has become apparent that the key ingredients in Fat-Less Slim Tea Super Strength have the following functions:

- * **Camellia sinensis** contains tea saponins which have the effect of helping to reduce fat absorption.
- * **Nelumbium speciosum** is traditionally used to disperse blood stasis, clear away summer-hat and stop bleeding.
- * **Polygonum multiflorum** can help reduce absorption of exogenous lipids and the absorption of cholesterol in the intestines.
- * **Crataegus pinnatifida fruit** contains flavone which helps maintain normal cholesterol and triglyceride levels.
- * **Cassia tora seed** can control activity of steapsin and help to maintain normal lipid levels thus reduce blood-fat level. It helps assist with the drainage of cholesterol and triglycerides.
- * **Salvia miltiorrhiza root** can help reduce the composition of endogenous lipid.
- * **Alisma plantago aquatica rhizome** helps maintain normal cholesterol and triglycerides

Each teabag contains:

Powdered extracts equivalent to dry-

Alisma plantago aquatica rhiz	800mg
Salvia miltiorrhiza root	800mg
Cassia tora seed	800mg
Nelumbium speciosum leaf	1600mg
Crataegus pinnatifida fruit	1600mg
Polygonum multiflorum root	800mg
Camellia sinensis dry leaf	1200mg

Directions for use:

Put 1 teabag in a cup of boiling water for 5 minutes to brew. Use 3 teabags a day.
